

THE EVOLIS RANGE OF PRINTERS: Technology that Serves your Needs

					
	Tattoo^e	Pebble^e	Dualys^e	QUANTUM	SECURION
	Compact in size, easy to use and very affordable: Tattoo ^e is the one-stop solution to print your badges singly or in small runs and for mobile applications as well.	Designed to meet all your needs in card personalization, from small runs to printing in volume, Pebble ^e is an ideal choice to deliver any type of badge in color and single-sided.	From issuing a single card to printing in volume, Dualys ^e is today's market benchmark for securely delivering badges and double-sided personalized cards of unmatched quality.	With a capacity of 1000 cards, Quantum is outstanding as a semi-industrial printer that provides badge personalization in bulk.	Securion is a solution that sets the standard to personalize and laminate badges. The printer supports the ever-stringent requirements in security and fraud-fighting, and helps to greatly extend the lifespan of any card.

SOLUTIONS FOR YOUR OWN, SPECIFIC NEEDS?

Proven technical expertise to serve your projects

To align with the specific needs of your project, Evolis has set up a dedicated team to assess and design customer-driven solutions. This team liaises with all technology partners and systems integrators in the market, and brings together product and industrialization expertise to support any project on a domestic or global scale. This flexibility and unique responsiveness to market requirements have helped Evolis successfully deploy multiple projects.

Here are a few examples of such projects:

- Personalization and RFID-encoding solutions for automated vending machines.
- Decentralized personalization of bank cards: 6000+ local branches of several banks

have already deployed one or more Evolis solutions.

- Stand-alone solutions to deliver loyalty cards at the point of sale.

SUPPLIES & ACCESSORIES

The quality of supplies plays a major role in printing plastic cards. Evolis offers a complete range of supplies and accessories that are designed to work with its printers. All supplies and accessories are tested and approved to guarantee card printing of premium quality and reliability.

BADGES FOR VISUAL IDENTIFICATION

Your badges and cards with peace of mind

Are you in charge of an association, a community or an event? Wouldn't you just simply love to identify your members and participants, and provide everyone with a nice personalized card? You can now use your own computer to design badge layouts. Spice it up with an ID picture and add some personal data. Then, simply print the badge and hand it to its new owner. Stunning! Can it be any simpler?

TAMPER-PROOF SECURITY FOR OFFICIAL CARDS

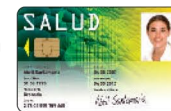

On-site delivery of secured and resilient official cards

You would like to personalize official documents such as identification cards, driver's licenses or health cards. Several governmental organizations have already selected Evolis' dedicated solutions to benefit from data protection, secured manufacturing process and card lamination.

Driver's license

Health card

You control a sports club or a transportation network, or you need to identify your students. You want more than a badge with just a name and a picture. You want to leverage the benefits of a magnetic stripe, a chip and other such advanced options. Evolis provides flexibility, proximity and printing in volume with printers that match smart features with premium quality: single or double-sided printing, all types of encoding (magnetic stripe, smart card with contact or contactless), and printing cards individually or in volume.
