

# Lobby Track

## Innovative Visitor Management Software

Lobby Track is the World's #1 visitor management and member tracking system. It allows organizations to compute time and attendance and to track employees and equipment with detailed individual or group logs. The visitor management functionality includes fast data entry, badge design and badge printing. With centralized management, online, self-registration and reporting components, Lobby Track is easily deployable across entire organizations. Unique to Lobby Track is its ability to seamlessly integrate with multiple existing data sources in real-time.

## Multiple Live Database Connections

- Maintain live connections to multiple databases in real-time
- Connect to and toggle between visitor, employee, membership, contractor or any other database
- One-click connections to popular databases and support for connecting to any ODBC / OLE DB compliant database
- No need to re-enter or import existing data making setup quick and easy
- Use pre-designed data entry forms or create your own using drag and drop tools
- Customize the way data is presented to the user to fit usability and security requirements
- Get started quickly with the pre-configured database or create a new database using a simple setup wizard
- Lobby Track easily integrates into new or existing environments

## The Lobby Track Advantage

### Visitor Management

Keep track of all visitors entering your facilities easily with Lobby Track's visitor pass creation and record-keeping capabilities. Create professional visitor passes, pre-register visitors online and run in kiosk mode for efficient self-registration.

### Member Management

Lobby Track's flexibility allows you to easily track all members, staff, and contractors. Check in personnel by scanning badges and IDs and create logs for each group.

### Time and Attendance

Details of each check-in and check-out are logged. Create detailed charts and reports for each employee, contractor or temporary employee. Integrate time and attendance report seamlessly with your existing payroll system.

### Equipment Tracking

Use your member tracking software to track equipment usage. Create reporting codes for each piece of equipment and maintain logs of all usage and check-out.

### Facility Security

Set unique access control policies for each location, individual and entry time. Maintain a watch list of all unwanted visitors and receive instant alerts to any potential security risk.

### Professional Card and Badge Design

Design professional photo ID cards and visitor badges using an integrated version of Jolly Technologies card design suite, ID Flow.

## Specifications

### Databases

Microsoft Access  
Microsoft SQL Server  
Microsoft Excel  
Microsoft Visual FoxPro  
Oracle  
Sybase  
MySQL  
dBase  
Includes Sample Database  
ODBC / OLE DB Compliant

### Barcodes

Code 39  
Code 128  
Codabar  
PDF417 (2D)  
DataMatrix (2D)  
Many More

### Printers

Dymo  
Zebra / Eltron  
Fargo  
Datacard  
UltraMagcard  
DNP  
Nisca  
Evolis  
HiTouch  
EDI Secure  
Laser and Inkjet Desktop Printers

### Devices

Cameras and Webcams (TWAIN / WIA)  
ScanShell 800  
ScanShell 1000  
SnapShell  
Topaz Signature Pads  
Integrision Signature Pads

### Templates

CR-80, CR-50, CR-79, CR-90, CR-100  
2500+ Avery and Other Paper Badges

### System Requirements

Microsoft Windows  
2000/XP/2003/Vista  
Pentium III 600 Mhz  
256 MB RAM  
100 MB Free Disk Space

## Feature Highlights

- Scan drivers license, ID cards, and passports for fast and reliable data entry
- Pre-register visitors online
- Employ kiosk mode for self-registration with non-disclosure agreement
- Configure watch lists for added security
- Print and export evacuation reports
- Configure access control rules
- Set alerts and messages
- Log time and attendance with exportable data capabilities
- Track activities with customizable charts
- Group individuals into functional membership groups
- Link and manage multiple locations
- Add, delete and modify database information in place using the integrated database editor
- Customize data entry forms - create your own or select from one of the included forms
- Customize logs and reports - use any combination of fields and criteria to produce professional reports
- Design cards and badges using powerful graphics and layout tools
- Add text graphics, photos, 1D and 2D barcodes, magnetic stripes, watermarks and much more to the card design
- Link to any database, file based, server based, LAN / WAN, or ODBC / OLE DB in real-time
- Capture photos from any TWAIN / WIA compatible camera and improve image quality using the integrated image editor
- Search easily for specific visitor or cardholder information from thousands of records using powerful and flexible search tools

## Available in Three Editions

Enterprise, Corporate and Small Business
