

**(MSRP) Order number is E5101LU – USD price is 2,140\$US**

**Support for CR-79 cards: the Pebble Printer CR-79 is available!**

**February 2007, Evolis Pebble printers now accept the CR-79 card format.**

CR-79 cards come with a size slightly smaller than CR-80 cards. Dimensions are 3.303" x 2.051" (52.1 mm x 83.9 mm). ISO CR-80 dimensions are 3.375" x 2.125" (53.98 mm x 85.60 mm).

### **Offer objective:**

Replacement for the discontinued New Pebble printer.

### **Product description**

Pebble CR-79 has two mechanical modifications:

1. In the card path, the lateral push guide that correctly positions the card inside the printer is different from the standard Pebble.
2. There are two additional chocks in the card feeder cage to uphold the smaller CR-79 cards in its right position.

### **Offer description**

You cannot upgrade an existing Pebble printer to use CR-79 cards, nor purchase the CR-79 cards option separately. The CR-79 card option comes as a factory setting and is available only with the Pebble CR-79 printer.

In addition to standard options of the Pebble printers, Pebble CR-79 has the following distinct characteristics:

- Printer is only available in BASIC model.
- Printer is supplied with a Lagoon color cover only.
- MAG, SMART and CONTACTLESS options are not available.

**It is still possible to use CR-80 card format on Pebble CR-79 printers.**

### **Product part number**

The Pebble CR-79 printer can be ordered under part number: **E5101LU**.

### **Availability and delivery lead-time**

Available from stock immediately.

For quantities higher than five units, please check with your Sales Administration Contact. Delivery lead-time is the same as for Pebble, that is, five open days.
