Paper Card Applications with the Evolis Tattoo2

The Tattoo2 monochrome printer enables printing on plastic AND paper cards. This concept makes the Tattoo2 one of the most cost-effective and versatile printers in its category.

Low-Cost Badges

Printing on paper cards provides a great alternative to PVC when the card's criteria is a short lifespan and low cost. Since the Tattoo2 is compatible with paper cards, compact and easy to use, it is an ideal and cost-effective solution for applications such as visitor management, business cards, loyalty cards, gaming cards, phone cards and much more.

Versatile and High-Quality Printing

Thanks to innovative developments by the Evolis R&D department, the Tattoo2 features the ability to print on different types of media such as paper, PVC, composite PVC, ABS and PET, without changing any technical parameters or settings. TransTech Systems supplies a complete range of supplies for printing on paper cards:

Part # C2001- Blank White Paper Cards- 10 mil - 5 Packs of 100

Part # R2219 - A BlackWAX ribbon known for its exceptionally high sensitivity level. Thanks to its greasy texture, this ribbon becomes a flexible tool that enables printing on any coated paper, as well as on plastic media such as ABS and cards with special varnish.
