Bellevue WA, 7th March 2008: Paxton Access Inc, a specialist manufacturer of access control systems, is pleased to announce a new distribution partnership with TransTech Systems Inc. Paxton Access is a market leader in the UK and Europe and strongly believes that their systems are a good fit for the US market. Incorporated in the US 18 months ago, Paxton Access systems have been warmly received by many US installation companies. Key to Paxton Access' success in the UK and Europe has been their commitment to designing and manufacturing intelligent products that are fit for purpose. The company offer innovative, high quality, sensibly priced products. "We are very happy to have signed an agreement with TransTech," said Anthony Searle, Senior Account Manager for Paxton Access Inc. "TransTech Systems is a leading North American distributor who have established themselves as a leader in the ID badging and access control field. They share Paxton Access' passion for good products and customer service. This makes them an ideal partner for us." "We are very glad to add Paxton Access products to our line" said Jeff Kruse, General Manager of TransTech Systems. "TransTech has been looking for a high quality, time tested yet fresh entry into the access control market. From their standalone products to their full system level products Paxton Access met these requirements. What other access control manufacture in today's market provides a 5 year guarantee?"
