

Securion advantages towards competitors

	Advantages	Why is Evolis Securion a better solution for the end-user ?
1	HIGHLY FEATURED	<ul style="list-style-type: none"> ⊙ Dual-sided printer AND laminator module from the very Basic version ⊙ USB & Ethernet delivered as standard ⊙ 2-line LCD display, LED status lamp, Centralized key lock, Reject box ⊙ Available options for Magnetic stripe encoder, Smart contact station with or without encoding unit and Contactless encoding unit. All kind of encoding features can be mixed together.
2	RELIABLE	<ul style="list-style-type: none"> ⊙ Metal frame and Metal housing aiming at securing the printer life span ⊙ Based on the Dualys dual-sided printing engine, which has a very good reputation on the card printer market ⊙ 2-Year warranty for both printer & lamination modules, print head and hot roller limited to 100,000 cards inserted
3	USER FRIENDLY	<ul style="list-style-type: none"> ⊙ One single key to secure the whole equipment makes its easy for the operator ⊙ A two-color LED provides the user with an instant status: green for rated operation, red for warnings and errors ⊙ The 2-Line LCD provides the user with clear status of the printer and the laminator. In addition, browsing the menu will give instant access to a set of applications and data related to the equipment's setting, operation and service. ⊙ Since the lamination's parameters should be adjusted in a case by case, depending on cards, design and laminates, there is a function in the printer's driver to permit saving a custom configuration (config name, lamination parameters). Then it is really easy to retrieve a former adjustment and apply it again. ⊙ You can select the ejection mode of the card: Front side Up, Front side Down so the cards can be sorted as you want (FIFO, LIFO)
4	HIGHLY SECURED BADGES	<ul style="list-style-type: none"> ⊙ Securion offers a wide range of encoding features as standard option aiming at serving all the Security, ID and Government markets: <ul style="list-style-type: none"> 3-tracks Magnetic stripe encoder HiCo/LoCo (ISO or JIS2). Smart Contact station Dual encoder for contact & contactless chip incl. Smart contact station & antenna All encoders combined together for highly secured badges ⊙ Rejected badges, Films, laminates and blank cards cannot be stolen thank to a centralized secured locker ⊙ If activated by the application software, Securion is password protected. In that case, none else than the appointed staff may use the printer which will remain silent to any printing attempt.
5	COST EFFECTIVE	<ul style="list-style-type: none"> ⊙ Securion provides the highest feature level from standard where competitors always offer options (Ethernet, Key lock, 100 cards output hopper capacity, LCD, ...) ⊙ Securion laminates 1.0 mil patches on standard PVC cards (single side lamination), which makes the cost per card dropping by about 10 cents per card ⊙ Using the Evolis Half panel ribbon makes Securion card personalization a very attractive solution: Dual-side YMC-K, single side YMCK – up to 40% savings on colour ribbon
