Expired

With TIMEjet Expiring Badges, you can print right from your inkjet or laser printer!

- Patented time expiring badges change color to indicate expiration in one day

- Red bars appear to clearly show when the badge is no longer valid, preventing unauthorized reuse

- Quick and easy to use

- Print quality color or black & white

- Customize with your own text, photo or graphics for enhanced security

TIMEjet™ Expiring Badge

① The FRONTpart is a hi-tech white badge with patented color-changing technology built in!

② The BACKpart is preprinted with time-release ink
(3" x 3" Clip-on BACKpart shown)

③ When the FRONTpart is applied to the BACKpart, the technology takes over and the expiration process begins

④ The color change is a gradual process that cannot be reversed
