Chicago, IL 15th April 2008 ISONAS Security Systems a specialist manufacturer of IP Panel Free Access Control Systems, is pleased to announce a new distribution partnership with TransTech Systems Inc. ISONAS Security Systems is the world market leader in the IP Panel Free Access Systems and has found a great partner in TransTech Systems. Incorporated in 1999, ISONAS Security Systems has been a pioneer of Panel Free Products that have been well received by many International and US installation companies. Key to the ISONAS Security Systems success has been their commitment to designing and manufacturing intelligent products that fit for purpose. The company offers innovative, high quality, sensibly priced products. "We are very happy to have signed an agreement with TransTech," said Michael Radicella, President of ISONAS Security Systems. "TransTech Systems is a major North American distributor who has established themselves as a leader in the ID badging and access control field. They share ISONAS' passion for good products and customer service. This makes them an ideal partner for us." "We are very glad to add ISONAS products to our line," said Jeff Kruse, General Manager of TransTech Systems. "TransTech has been looking for a high quality, time tested yet fresh entry into the access control market.

About ISONAS Security Systems, Inc.

Since 1999, ISONAS Security Systems provides advanced, Internet Protocol (IP) Access Control solutions for customers who require the superior, real-time access control enabled by a true network appliance. ISONAS is the first and leading developer of IP-at-the-door reader-controllers. Driven by its Windows-based Crystal Matrix Software™, ISONAS products are easily integrated with other network-based systems, providing the most advanced physical access security for buildings and workplaces worldwide, across a wide range of industrial applications.
