All-In-One RFID System

Warehouses face the challenge of tracking and managing inventory. Inventory items are are often moved from their location without authorization and are not returned to their original location. Locating and cataloging these assets can be time-consuming, especially during peak periods.

TransTech offers the Warehouse Inventory Solution to accurately track warehouse inventory and notify staff when an item is missing. The Nox Vault reader instantly and easily checks warehouse aisles, shipping stations and loading docks and provides an exception report that shows missing or extra inventory.

Quick Count Kit Includes

- 1 Nox-Core Software License

- 1 Nox Vault Handheld Reader

- 100 Nox-3 Paper UHF Tags

- 1 Year Technical Support

Learn here how warehouses
use NOX as their inventory solution!

MSRP $6699.00

Benefits of Warehouse Quick Count

-**Save money** by reducing labor time needed to count inventory

-**Increase** supply chain management **efficiency** by providing warehouse employees accurate inventory counts

-**Easily manage inventory** with the locate feature that guides users to specific items. Type the ID of the tag you're looking for, press enter, and pull the trigger to begin scanning. A blue bar will appear as the item is read, and the closer you are to the item the larger the bar becomes.
